a) To review the playground inspection report received on 23rd April 2026 and decide on the next steps. Mr Wicking summarised the report and a number of the issues identified are to do with the age of the structures, the wood drying out etc. Last year the basket swing was removed from the frame because of cracks in the post. The report identified that several of the items of equipment had a 1-3 year life expectancy. Some can be repaired but some items may be better being replaced. Consideration needs to be given as to what equipment maybe needed, for example adult training equipment and equipment for small children and the views of residents sought. Also need to pick out areas from the report of moderate risk for action and repairs and painting. **Action Mr Wicking**. It was proposed by Cllr Newman and seconded by Cllr Durrant that a working group of the parish council be formed to take this forward and report back to the parish council in 6 months' time. **Action Cllr Durrant, Cllr Cook and Mr Wicking** to meet and invite some interested residents.

It was agreed that the Clerk would write a response in consultation with Cllr Card. **Action Clerk and Cllr Card**. Cllr Newman had nothing to report.
